

# Related Study Matching

 This feature is only available to Administrators and Limited Administrators.

Related Study Matching is available under the "Admin" menu and contains the following subsections:

[Study Matching Ordering Rules](#) - Rules that define the relative importance of other studies compared to a newly stored study of a patient .

[Gateway Study Retrieval Policies \(OnePacs Paid Feature\)](#) - Configuration for the OnePacs Gateway to retrieve related studies from an external PACS system.

[Study Retriever Policies](#) - Configuration for the OnePacs Study Retriever that determines what order and how many relevant prior studies to download to a radiologist's workstation.
